U.S.A.

WHY OUR MINE DOORS

- **SIDE CLOSING DOOR**

Side self-closing promotes hand and leg safety and avoiding slamming conditions.

- **TOUGHEST/SAFEST DOOR AVAILABLE**

Tubular frame will function through significant convergence and heaving.

- **SURE TIGHT LATCHING HANDLES**

Double latching that allows the door to be securely closed on all corners.

- **FIVE PARTS + ONE TOOL**

Modular design and durability that provides lower repair costs.

A.B.E. Manufacturing and Fabrication is a premier metal fabricator. From creating precision sheet metal parts, prototypes, short run production to high volume manufacturing, we can handle everything.

Whether it be steel, specialty metals or pre-painted graphic sheets, our full service job shop includes:

Laser-Cutting, CNC Bending and Machining, Welding, De-burring, Powder Coat Painting, Assembly, Packaging Services and more.

A.B.E. stocks the following materials: Wire, Tubing, Structural Steel and Sheet Metal, ready to fabricate anything you need.

Offering complete design, fabrication, assembly, warehousing and drop-shipping services, we are your full-source partner and manufacturing team.
